PROJECTS

Portfolio 🔗
- Create a responsive personal website to showcase skills, projects and resume using **HTML**, **CSS** and **JAVASCRIPT**.
- Using CSS media queries and designed a responsive layout to ensure the website is fully functional on different screen sizes.
- Developed interactive elements such as a contact form and a project navigation using **JavaScript** for basic functionality.

Weather Forecast Application 🔗
- Developed a weather forecasting web app using **HTML**, **CSS** and **JAVASCRIPT** to provide real-time weather updates based on user location**.**
- Integrated **OpenWeatherMap API** to fetch dynamic weather data based on user input or geolocation.
- Implemented **JavaScript** to handle user inputs, validate city names and display error messages.
- Implemented a weather icon system that dynamically updates based on API responses.

Whiteboard App 🔗
- Developed a digital Whiteboard using **HTML**, **CSS** and **JAVASCRIPT**.
- Implemented drawing functionality with customizable brush color and thickness.
- Integrated **save feature** to download the whiteboard as an image.
- Enhanced user experience with smooth drawing functionality using mouse or touch input.

ACHIEVEMENTS

- Participated in Technical Event and was awarded first place alongwith a cash prize.
- Participated in the Cultural Event in college with a team of 5+ members and we won at second place.
- Runner-up in Rangmanch Drama Play in the Cultural Event.
